

Converted Roll Stock

HFM PACKAGING CONVERTED ROLL STOCK

Custom designed machines create peel and re-seal packages

Total traceability and methodical organization

Peel & Re-seal expertise

Converted roll stock becomes peel and re-seal pouches

HFM Packaging is your source for creating innovative flexible packaging that gets you to market faster with the highest quality packages.

From short-runs for test markets to full production runs, we keep your project on track and on time. You can rely on us to deliver exactly what you want when you want it. We always meet or exceed your expectations.

Our packaging experience and capabilities run the gamut of flexible packaging and converting. We produce converted roll stock for VFFS or HFFS, including pre-zippered roll stock, peel and re-seal roll stock, perforated roll stock, peel and re-seal lidding and much more.

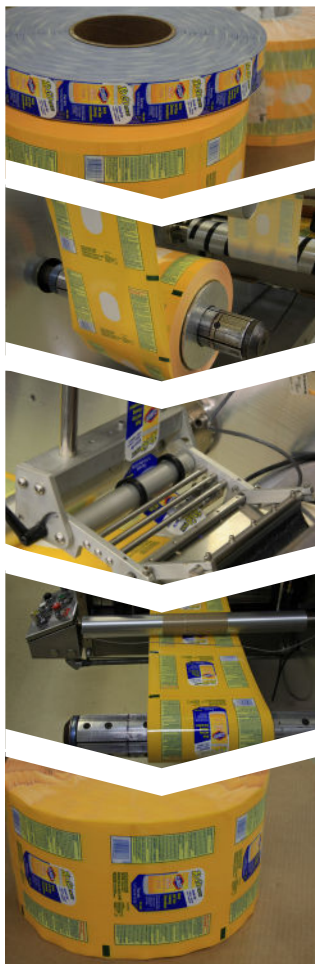

Quality control and production management at HFM includes material management, artwork approval management, quality assurance, scheduling, and total traceability. We worry about the details so you don't have to.

Our expertise and capabilities are your advantage

- Over 35 years packaging experience
- Engineered specs and CAD drawings eliminate costly mistakes
- Material selection expertise ensures proper performance
- Prototype creation and testing proves feasibility
- Custom equipment creates quality re-closeable packages
- Experienced and knowledgeable operators perform consistently
- Low scrap rates and high yields lower your total cost
- Total traceability increases accountability and analytics

HFM is a certified Minority Business Enterprise and has an AIB certified Food Defense Coordinator on staff. We will produce your pouches...
on spec...on time...every time.

"HFM folks are friendly & trustworthy. Their lines of communication are excellent. They're really good to work with." -Project Manager at a Co-Packer Client
